## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 37-40, and 50, drawn to virus-like particles comprising at least two capsid types. (1<sup>st</sup> product and method)

Group II, claim(s) 1, 10-14, 50-51, drawn to a composition comprising virus-like particles comprising at least two capsid types. (2<sup>nd</sup> product)

Group III, claim(s) 15-26, drawn to method of producing virus-like particles comprising at least two capsid types. (2<sup>nd</sup> method)

Group IV, claim(s) 27-36, drawn to host cells. (3<sup>rd</sup> product)

Group V, claim(s) 41-48, drawn to method of expressing capsid proteins from at least two types of viruses. (3<sup>rd</sup> method)

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of Group I is known in the prior art as evidence by Sasagawa et al (Virology, 1995, Vol. 206, pages 126-135) wherein the reference teaches virus-like particles comprising at least two capsid types ( see the abstract). The cited

Art Unit: 1648

evidence proves that the technical feature of Group I does not make a contribution over the prior art. Thus, the claims are not so linked by a special technical feature within the meaning of PCT Rule 13.2.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
